

The Cerrillos Rustler.

VOL. IV, NO. 1.

FRIDAY JULY 10, 1891.

\$3 PER YEAR

CERRILLOS LODGE, No. 19.
A. F. & A. M., meets at its hall on the first Saturday evening in each month.
CHAS. F. EASLEY, W. M.
STUART F. LOUGHBOROUGH, Sec.

VESPER LODGE, No. 15, K. of P.
Meets Tuesday evening of each week, at 7:30.
Z. M. CRUTCHFIELD, C. C.
D. J. JONES, K. of R. S.

Church Directory.
M. E. Church South.—Rev. J. M. Crutchfield, pastor. Preaching every Sabbath, morning and evening. Sabbath school at 9:45 a. m. Prayer meetings Wednesday evenings.

A. T. & S. F. Time Card.
Trains carrying passengers leave Cerrillos as follows:
EAST:
No. 2, Passenger, 3:10 a. m.
" 4 " 5:42 a. m.
" 34 Freight 9:38 p. m.
" 36 " 1:06 a. m.
" 38 " 8:53 a. m.
WEST:
No. 1, Passenger, 1:06 a. m.
" 3 " 10:33 p. m.
" 33 Freight 6:36 a. m.
" 35 " 1:06 a. m.
" 37 " 5:06 p. m.
In effect Sunday Feb. 1st 1891.
C. E. HARNEY, Agent.

Local Rustlings.
Vol. 4, No. 1, this.

"Bert, have a chew of tobacco!"
See Ames & Gould for lumber and feed.

A select dance was on the social board at the school building, Wednesday night.

It is rumored that there are two new doctors in town—Messrs. Sugar and Gould.

All record of titles to Cerrillos property is soon to be completed and rendered perfect.

Forepaugh's big show will travel through New Mexico in August, giving exhibitions at the principal cities.

Greater preparations are being made than ever before, to insure an unparalleled success of the Territorial Fair.

At the Territorial Fair to be held at Albuquerque September 14, 15, 16, 17, 18 and 19, 1891, \$3,500 is offered in purses for speed contests.

The board of county commissioners met Monday, and after canvassing Santa Fe city vote and attending to other routine business, adjourned.

The RUSTLER has had so many pleasant callers since moving that it can only say: Thank you! in a general way. But come again, and often.

In about six weeks from now, the fall trade for coal will commence, and that should materially help to liven up things around Cerrillos.

Cerrillos is the nearest and only convenient point from which to reach San Pedro, Golden and Dolores camps. Good stage line and good hotels.

See change in time of departure and arrival of stage line between Cerrillos and San Pedro, in regular advertisement. Daily round trips are now made except Sundays.

A brisk whirlwind passed along Bridge street Tuesday, almost lifting the roof from the Cerrillos Supply Co's. store and giving L. G. Jones' awning a severe shaking.

The next missionary entertainment at the M. E. Church will be a week from Sunday night. The children's exercises at these entertainments are highly interesting.

If any one person more than another in a community, deserves to be well coated with tar and feathers and hustled out on a rail, that person is the villainous black-mauler and cowardly anonymous letter writer.

Rev. and Mrs. J. M. Crutchfield, Dr. Palmer and the RUSTLER family accepted an invitation to dine at the new California Chop House, at 4 o'clock, p. m., on Sunday. The bill of fare was very elaborate and the guests did ample justice to the good things provided.

It may be reckoned an easy thing to go along week after week, month after month and year after year, running a newspaper and treating the same subjects—but always in a light to make them appear new, yet it isn't. If you think it is, just try it for a few years.

Vesper Lodge No. 15, K. of P., installed its newly elected officers Tuesday night as follows: C. A. Whited, P. C.; Zed Crutchfield, C. C.; Wm. Ash, V. C.; T. Tucker, P.; Charles Mills, M. at A.; L. G. Jones, M. of F.; Wm. Partridge, M. of E.; D. J. Jones, K. of R. S.; Geo. Morgan, I. G.; J. Hulscutter, O. G.

Although the days have been so hot for the past week that a piece of ice exposed on the sidewalk for a few minutes at mid-day, would begin to blaze, yet as soon as the red disc of the sun disappears beneath the western horizon, soft, cool breezes come, and nothing more pleasant than our nights can well be imagined.

The Cerrillos people who spent the 4th at San Pedro, unite in enthusiastic praise of the treatment they received. The people of the Copper-Carbonate camp seemed to vie with each other in their efforts to make things pleasant. The picnic in the day and the ball at night, were each a marked success, and enjoyed accordingly by the large attendance.

The school board organized Wednesday with Tony Neis as chairman and Harry Kinell as clerk. New furniture has been ordered for the school building and two schools, American and Spanish, with competent teachers, will begin the first of September and continue for eight months. For the first time in the history of Cerrillos the outlook for public schools is good.

Mr. and Mrs. J. M. Rogers had born to them on Sunday night, July 5th, 1891, a daughter. Mr. Rogers thinks a great deal of girls, but he has a number of them and has been noticed hanging around the feed store much of the time this week. It is said that he has been trying to trade for Ames' boy and get a sack of oats to boot. Mr. Ames however, declares that he wouldn't trade his boy for a village full of girls.

Mr. Ross Griffith and Miss Lizzie Copeman were united in marriage at the coal camp last Friday evening. Rev. J. M. Crutchfield officiating. The wedding was a happy occasion to all the people of the camp, as well as to the principals, who never felt more patriotic in their lives. May they live to see many returns of the happy Nation's birthday, as well as the birth-days of young American citizens who next to their country, will love them the most.

The fourth passed off quietly at Cerrillos, though everybody appeared to fairly enjoy themselves. A short game of ball was played in the afternoon between a picked nine from Cerrillos and nine of the Cash Entry boys, the mine nine winning by a score of 15 to 11. Although no especial preparations had been made for a fireworks display, the town was brilliantly illuminated at night, until a late hour. Another pleasant feature of the day was a young folks' party at the school building at night.

Personal Rustlings.

Abe and Ned Gold came in last night from Santa Fe.

Ernest Hart is now with his mother at Albuquerque.

Mrs. M. A. Hurt arrived this morning from Nashville.

Mr. and Mrs. Edgar Andrews visited Santa Fe yesterday.

Mrs. U. C. North has some very bright young pupils in music.

Miss Berta Hurt is down from Santa Fe, visiting young friends.

Mrs. Mitchell was up from Wallace, Wednesday, visiting among her friends.

S. L. and G. W. North were visitors to Santa Fe the early part of this week.

Wm. Atchison, of the stage line, has moved into the property vacated by C. L. Gould.

Mrs. Waring, daughter of Mr. and Mrs. C. W. Uptegrove, is visiting her parents from Las Vegas.

James Miller and family have moved into the dwelling recently vacated by the RUSTLER family.

Quite a number of men are and have been for years, steadily making wages placer washing in southern Santa Fe county.

Dr. Saunders who was formerly located here as a Dentist, has been licensed to preach. The Doctor is also a champion checker player.

Mr. S. L. North, accompanied by Mrs. U. C. North, took this morning's train east, for Las Vegas and she for a visit to Santa Fe.

Rev. J. M. Crutchfield has been on the sick list a part of this week. Also the infant sons of himself and brother, Zed. All are reported better.

Judge A. L. Kendall, at the post office, has dropped his stationery and book business and will hereafter only attend to court and official work.

Mrs. C. F. Jones, who has been visiting her old home and friends in Cerrillos for a week, returned to her husband and new home at Springer, Monday.

Col. J. P. O'Brien was in from San Pedro Monday. He reports good ore in the Catron group of mines, which is constantly improving as development progresses.

Will Coleman, conductor on the Santa Fe Southern, spent the 4th in Cerrillos, visiting his parents, and, we believe, there was another attraction in the form of a certain young lady.

W. H. Kennedy, feeling the need of recuperation, has gone up to the Pecos country for a week. Geo. L. Wyllys is closely watching the interests of the Supply Co. store in his absence.

Personal note from the Santa Fe Sun: "L. Kelley, one of Cerrillos' prominent men, is up to the city from the little Pittsburgh, as we like to think and speak of that prosperous commercial center of southern Santa Fe county."

Prof. Quayle and wife left Monday evening for Long Beach, where he attends an assembly. His discourses here on Sunday were received as a rare treat by the people of Cerrillos, who crowded the M. E. Church to its holding limits to hear him. A future visit will be very welcome.

Julius Murrator, who has been located at Cerrillos for nearly three years in the tailor's trade, left Monday night for San Francisco, California, where he expects to make his home for the present. His life here was exemplary and his departure is regretted by all. Sober, steady and industrious, he was a willing sharer of weal or woe, as well as an active member of society. Cerrillos unitedly wishes him prosperity and happiness in his new home.

Mine Rustlings.

Lead is quoted at \$4.45—Copper at \$12 to \$12.50—Silver \$10.

Work is progressing steadily on the leading properties at and around San Pedro.

Manager E. Hahn, of the Cash Entry, made a business trip to Santa Fe yesterday.

The water from the Cash Entry flows steadily down to the Galisteo, through the San Marcos Orroyo.

The amount of gold shipped so far this season out of the United States, is \$75,000,000. Enough in itself to create a panic.

Travel to the San Pedro mines appears to be increasing. Yesterday two extra vehicles beside the stage, were loaded with passengers.

Mr. F. Simonson, of the Mine Exchange, returned from Ojo Caliente Springs yesterday, improved in health, and ready to give his personal attention to business once more.

The local mining future appears bright with promise. The machinery of all the mines, both here and at San Pedro, is being increased and both mills are likely to start up at Dolores.

Messrs. Middleton and Newhouse, Denver capitalists, the former one of the purchasers of the Lincoln-Lucky mine, arrived yesterday and proceeded to San Pedro in company with R. Y. Anderson.

The Territorial Fair Association offers \$100 for the best general collection of ores from New Mexico or Arizona. The collection must include gold, silver, copper, lead, iron, etc. For the second premium \$25 is offered; also \$50 for the best display of gold bearing rock from any one mining district—from not less than three mines in that district, and each sample to be not less than 25 pounds. Best collection of silver ores, same condition as above, \$50—best collection of copper ore, not less than 50-pound sample, \$30. Best display of lead ore from any one mining district, not less than 100-pound sample, \$30—same in iron, \$20. Anthracite coal, 500 pound sample, \$10—same for Bituminous coal.—Same for best 100 pound sample of coke. For best samples of tin ore, manufactured brick, fire brick, building stone or marble, \$10 each is offered. The services of Gov. E. S. Stover, of Albuquerque, has been secured by the Association to superintend the Geological Department.

At 5 o'clock last Wednesday morning the shafting of the South Homestake mine at White Oaks was discovered to be on fire. The fire had then been under way for hours, and though business was suspended in the town and every effort put forth, the shaft could not be got in condition to descend until Friday evening. Two miners were at work in the mine when the fire broke out and were doubtless almost at once overcome by the foul air. George Drake, well known here and at San Pedro, and a brother of Jim Drake at the later place, was one of the unfortunate men, Ernest Timony, son of E. McB. and Ella Timony, of White Oaks, the other. Their bodies were found in the drift where they had been working, about 120 feet from the bottom of the main shaft, their heads leaning on their hands, the appearances indicating that they had just finished eating their lunch when overcome by the gas. Geo. Drake was known to all as an honest and industrious young man, a good companion and friend, who had the respect of all. Such sad, untimely endings of human life, always bring with them a shock and forcibly remind us of the uncertainty of our time here.

After the land grants are disposed of in southern Santa Fe county, a concentration of capital and effort will work wonders. There is a field at Dolores to profitably employ millions of money and hundreds of men. Almost the entire country around San Pedro is capable of a rich output of gold, silver, lead, copper and iron. North of Cerrillos lies the great Cerrillos Mining District, with thousands of acres of silver, lead and zinc. Adjacent to this are the world-famous Turquoise mines. Between them all and apparently wedged in for the sole purpose of supplying fuel for reducing the other minerals and to astonish the geological world, is the noted Cerrillos coal field, with its great beds of Anthracite bituminous and coking coals. There is not a more wonderful mineral area out of doors than that embraced in and directly surrounding southern Santa Fe county. The settlement of the grant questions by the land court is impatiently awaited, and men and syndicates, with abundance of capital, only await such settlement to act. Until that is done, there is little hope of extensive development, save in a few cases where plants have already been established.

Geo. J. Smith, Golden, Wedeles & Eldred, Santa Fe, Tony Neis and D. D. Harkness, Cerrillos, and A. H. Douglas, Georgetown Colorado, all have the RUSTLER's thanks for cash subscriptions this week.

The roads are getting quite dusty and a soaking rain would do good all around.

The Cerrillos House will have a new advertisement next week.

This paper can say truly that it has never, on account of being the only paper published in Cerrillos, charged one cent more for any job than the prices at Albuquerque, Las Vegas or Santa Fe. Its ruling prices for job work have been about 20 per cent. higher than it got in Illinois—less difference than there should be, and its advertising rates have been little or no higher. The paper has always done business on business principles and will continue to do so as long as it is able to do business at all.

Monday afternoon Johnny Davenport, a railroader, was sitting in a chair on the sidewalk at San Marcial, when Al Chapman, a drunken cowboy, came along and gave him a kick. Davenport got up and shot three times at Chapman and Chapman returned the fire with two shots. Then Marshal Blunt came along and shot twice at Chapman, after which the Cowboy was arrested and lodged in the cooler. Nobody hurt. Good shots down that way.

Masons' Fruit Jars and White Mountain Ice Cream Freezers at CERRILLOS SUPPLY CO'S.

An absurd and groundless story to the effect that a commissioner was on his way to take charge of the First National Bank of Las Vegas, which has always stood at the head of New Mexico banks, by some means found its way into a Kansas City paper last week and would have created a considerable run and annoyance had not prompt measures been taken by both the bank officials and the authorities at Washington, to prove the falsity and absurdity of the statement. How the publication came to be made is a mystery.

We have added Coffins and Caskets to our line of business, and can make prices as low as any house in the territory.

CERRILLOS SUPPLY CO.
